From the Leiden Gazette, dated Aug. 15.

Geneva, Aug. 5. Yeſterday came hither the laſt of 110 French Proteſtants, Part of the 136 who have been diſcharged from the French Gallies, and the reſt are daily expected. Thoſe already come cannot ſufficiently commend the generous and affectionate Welcome given them by our Magiſtrates, and generally by all the Inhabitants of the City of whom great Numbers went out to meet them. They ſpeak very thankfully likewiſe of the good Treatment they received at ſeveral Places in their Journey, from the Governours of Towns belonging to the Duke of Savoy. Thoſe of this City who went out to meet them, were extremely moved to ſee the Tranſport of a Mother embracing her Son whom ſhe never thought to have ſeen again, and of a Siſter who at the Sight of her Brother ſtood like a Statue unable to utter a Word. The Collection made for them here is very conſiderable, every Houſekeeper having given liberally according to his Ability.

Hamburg, Aug. 11. The King of Denmark continues at Gottorp, nor is it yet known when he will depart from thence to make the Campaign in Pomerania: Mean while we have Advice, that the 8th Inſtant a good Number of Ships ſailed from Copenhagen, having on board a great Train of Artillery to be employed in the Siege of Stralſund; and that the Squadron of Swediſh Men of War which lay ſome Days at Anchor by the Iſland of Bornholm, with Troops on Board intended to be landed on the Iſland of Rugen, having Intelligence that Admiral Reetz was put to Sea with the Daniſh Squadron, to ſeek and fight them, weighed and ſtood away for Carelſcroon. The Saxons and Muſcovites, ſince their diſlodging the Swedes from the Iſland of Rugen, have intrenched themſelves there, in Number 3000 Men. 'Tis ſaid the King of Sweden gave Anſwer to Lieutenant-General Ranck, who went to him in Turkey the beginning of laſt Spring, to propoſe to him the Marriage of his Siſter the Princeſs Ulrica Eleanora with a certain Prince of the Empire (ſome Advices ſay the Prince of Heſſe-Caſſel,) that his Majeſty hoped to be back before him in his own Dominions, and would then explain himſelf on that Affair. We have an Account from Stockholm, that thoſe of the Regency were gone from thence to Arboga, to deliberate with the States of the Kingdom, who are to aſſemble in Diet there, about the Manner of eſtabliſhing a new Government, in caſe the King do not return to his Dominions; and that there was great Diſunion between the antient and new Nobility of the Kingdom. There is the like Diſunion in Finland; but the Czar of Muſcovy gives hopes to the antient Nobility of that Province, of reſtoring them to their former Eſtates and Privileges; which has created him a great Party in that Country.

From the Paris Letter, dated Aug. 18.

Paris, Aug. 18. The Letters from the Camp before Landau tell us, among other things, that the 6th and 7th Inſtant were ſpent in perfecting the Works and Lodgements on the Paſty, the taking of which will facilitate our poſſeſſing our ſelves of the Sluces, and of the Redoubt which is no longer defended by any thing but a Counterguard and a Half-Moon already much damaged by our Batteries, which fire continually on the Place, where (Deſerters reported) our Bombs had ſet fire to the Magazine of Powder which all blew up. We are aſſured there is ſome new Enterprize contrived to be gone upon aſſoon as Landau is taken; and there was a Talk in the Camp that the Cavalry (which Monſieur the Duke had reviewed) would ſoon be ordered to put themſelves in Motion. The Dutcheſs of Berry came laſt Week to make a Viſit to Madam the grand Dutcheſs at the Palais-Royal, accompanied and attended

tended by a numerous Train of Coaches; and she flung among the People in the Streets 70 Pistoles in Gold. Some Days ago the Boat from Sens was bilged and sunk under the Bridge of Melun, and of 60 or 80 Persons who were in it, the greatest Part were drowned. And on Saturday last the Boat from Corbeil laden with Bread for this City, was lost near the Bridge de la Tournelle. The Court go to Fontainebleau the 30th Instant.

From the Paris Gazette, dated Aug. 19.

Hague, Aug. 10. The 4th of this Month the Duke d'Ossuna and the Marquis de Monteleon, Ambassadors of Spain, came hither with 3 Coaches and 6 Horses. They have since had several Conferences with the Deputies of the States, concerning some Articles which relate to the concluding of the Treaty; and 'tis hoped the Difficulties will soon be removed. The Deputies of the States have likewise had divers Conferences with the Ministers of the Czar, the King of Denmark, and King Augustus, for endeavouring to terminate the War in the North.

From the Leiden Gazette, dated Aug. 15.

Letters from Dusseldorp of the 10th of August advise, that on the 8th the Elector Palatine received an Express from the Court of Vienna, who 'twas said had brought him Letters importing, that at the pressing Instances of the Queen of Great-Britain and of the States-General, the Emperour was willing to renew the Negociations of Peace with France, provided that Crown be disposed to hearken to reasonable Conditions; and that his Electoral Highness had had a long Conference thereupon with his principal Ministers.

From the Antwerp Courant, dated Aug. 18.

Dunkirk, Aug. 15. Six English Regiments, coming from Ghent and Bruges, are arrived between this Place and St. Vinoxberg. The necessary Transports for carrying them over to England or Ireland are expected. We remain in hope here, that our Deputies who are sent over to England, will return with a favourable Answer from the Queen, about the retarding the Demolition of our Harbour.
